Design Objectives:

- Develop an audio-visual experience
- Create interaction between user, song, and visuals
- Set other-worldly tone through movement, noise, objects

Audience Needs:

- Target those with creative, open minds
- Do not target those who are close-minded

Content Requirements:

- Shapes/objects
- Guided text (ex. follow the dot with your eyes)
- Dark color scheme

Functional Requirements:

- Follow instructional guides on screen
- Hear the song
- Make the objects move
- Match song timing with movements
